About Food First	204

ILLUSTRATIONS

Figures

- 1.1 The Lowland Tropical Rain Forest of Central America.
- 1.2 Map of Nicaragua and Costa Rica.
- 2.1 The Distribution of Rain Forests in the World.
- 2.2 How Nutrients are Absorbed by Plants.
- 3.1 Hypothetical Illustration of Typical Distribution of Soils under a Tropical Rain Forest.
- 3.2 A Production Plan Based on the Underlying Soil Mosaic.
- 3.3 Slash and Burn Agriculture.
- 3.4 Functioning of the Chinampa System.
- 4.1 Banana Production in Central America. (2 photos)
- 4.2 Aerial View of United Fruit Company Banana Plantation in Costa Rica.
- 4.3 Banana Workers Prepare Metal Monorail to Receive Harvested Bananas.
- 5.1 Goods and Money Transfers in the Modern Agricultural System.
- 5.2 The World System.
- 6.1 Informal Uses of Rain Forest Wood. (3 photos)
- 6.2 A Recently Logged Area in Southern Costa Rica.
- 6.3 A Bulldozer Moves a Recently Felled Log.
- 6.4 Natural Disturbance Is a Recurring Event in Many Lowland Rain Forests. (2 photos)
- 8.1 Sketch Map of the Region Surrounding the Town of Puerto Viejo.
- 9.1 The Relationship Between Planned Biodiversity and Associated Biodiversity.
- 9.2 How Biodiversity Changes as a Function of the Intensification of the Agroecosystem.
- 9.3 Patchwork of Forest Fragments.
- 9.4 The Traditional Coffee Agroecosystem in Central America.
- 9.5 The Modern, Chemically Intensive Coffee Agroecosystem in Central America. (3 photos)
- 9.6 Number of Species Preserved within Protected Areas.
- 11.1 The Web of Causality for Deforestation of Rain Forests.

-
- 11.2 The Expanded Web of Causality for Deforestation of Rain Forests.
 - 11.3 Poster on the Wall of CORBANA.
 - 11.4 Poster on the Wall of the Ministry of Agriculture in Nicaragua.

Tables

- 6.1 The Approximate Damage to Biodiversity.
- 9.1 Insect Species Found in the Three Coffee Systems.
- 9.2 Hypothetical Biodiversity Preservation.
